Reasons for Allowance

1. Claims 2-8 and 10-24 are allowed.
2. The following is an examiner's statement of reasons for allowance:

While Levac (U.S. Patent No. 5,872,926) discloses a system for transmitting a message generated by a message source to diverse communication devices. The types of communication devices to receive the message and their respective sites are selected in response to message parameters contained in a message file. The message is converted to a format compatible with the selected communication devices before transmission of the selected files. Levac does not teach a wireless device capable of making a request or generating, subsequent to receiving the request from the requesting wireless device, a response to the requesting device; and other limitations related to these features in combination with the remaining elements and features of the claimed invention.

And Himmel (U.S. Patent No. 6,167,441) discloses customizing of web pages based on the capabilities of a requesting device. A agent at the web server is directed to intercept a request made by the requesting device for detecting the client device capability information. The request is then redirected to a pre-existing appropriate URL that matched the capability information to retrieve a version of a requested file. Himmel does not teach generating, subsequent to receiving the request from the requesting wireless device, a response to the requesting device; and other limitations related to these features in combination with the remaining elements and features of the claimed invention.

The prior art of record fails to teach or fairly suggest to one of ordinary skill in the art at the time of the invention, in conjunction with all the other claimed limitations, receiving a

request originating from a wireless device, generating, subsequent to receiving the request from the wireless device, a response to the request for data, etc., as set forth in the claims. It is for these reasons that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
